

# Lone Star Defoamer

## Product Data Sheet

**Description** Lone Star Defoamer is a polymeric surfactant-based defoamer designed to mitigate and reduce entrapment of air in water-based and brine-based drilling fluids.

**Application/Function** Lone Star Defoamer can be used as an effective defoamer in water-based drilling fluids, including polymer-based systems such as workover and completion fluids, brines and cementing.

### Features

- Non-toxic and Eco-friendly
- Premium defoamer and antifoam dispersible in water
- Effective in fresh water, sea water, brines and cementing fluids
- Extremely small amounts required which saves rig space

**Typical Properties** Appearance: Clear liquid

**Recommended Treatment** based on the active fluid system

	lbs/bbl	gals/100 bbls
Normal	0.08 – 0.10	1.0 – 1.2
Severe	0.12 – 0.16	1.5 – 1.9

**Packaging** Lone Star Defoamer is available in 5-gallon pails (32 pails/pallet) and 55 gallon drums

**Availability** Lone Star Defoamer can be purchased through Lone Star Liquid Distributors, LLC with a purchase order. Contracts terms are also available.
